

INTERNSHIP CONDITIONS IN EUROSTARS MUNICH

Eurostars Hotels is a hotel chain belonging to the Hotusa Group. In 2005, Grupo Hotusa created the Eurostars Hotels chain, a collection of high-end urban establishments, with a strategic location in the historic center of the cities or in the vicinity of its financial districts that stand out for their cultural uniqueness. Currently, the chain has a portfolio of more than 100 establishments located in major Spanish capital cities as well as in the main international destinations: New York, Berlin, Rome, Naples, Venice, Palermo, Brussels, Prague, Budapest, Lisbon, Porto, or Mexico City, among others. Touring the facilities of any of the Eurostars hotels means discovering a universe of spaces of careful interior design and pampering decoration, where avant-garde and tradition blend to give place to warm and welcoming establishments. In them, the guest feels the comfort of their own home, without renouncing the advantages and comforts of the most modern facilities and state-of-the-art technological equipment.

Year after year, the hotel division, designated Eurostars Hotel Company, has expanded its portfolio of establishments in Spain and other European countries. This process of expansion was completed in 2005 with the launch of the Eurostars Hotels chain, which in just over 5 years has expanded rapidly both nationally and internationally. Subsequently, a second chain, Exe Hotels, was born, which comprises a selection of 67 modern and functional establishments in cities of 13 countries and which adds its directory of hotels reaching up to 169 establishments in 18 countries.
