

International Week

Angers University Institute of Technology

16th-20th May 2022

Why International Week ? A win-win project

At the IUT of Angers we are very proud to have built up a network of international partners across the world.

During the International Week, while you expand your professional network and visit the lovely Anjou region, our students will get the chance to experience different teaching methods, deepen their appreciation of foreign languages and get inspired to study abroad.

How is the Week organised ?

The week is made up of a series of rich lectures and workshops. As for your lessons, you should focus on an aspect of your expertise (though not too technical) or, some socio-cultural aspects of life in your home country.

... and the lesson content?

You will be with our first-year students and so we do not expect the material covered to be too highly technical or in-depth. Interactive activities and workshops are most welcome to optimize the students' participation. If you intend coming with some of your students, please let us know their number so that we can arrange for their accommodation on the campus and their program during the week.

Funding

In previous years, our guest teachers have been able to finance their visit (travel and accommodation costs) from the home university's Erasmus Mobility Budget.

International week 2019

What's included in your week?

- A rich program of company and cultural visits to allow you to discover some of the economic and regional highlights which make the greater Angers region unique, lunches, snacks and a welcome and farewell dinner.

**If you would like to join us, please
confirm by January 30th 2022**

Thank you

International Week
Angers University Institute
of Technology
16th-20th May 2022

Can you provide the following information in your email:

- the name(s) and email address(es) of participants;
- the proposed topics for their lectures and/or seminars;
- the language of teaching if other than English.

Please reply to
