Aims of the conference

The aim of the conference is to promote scientific debate on current regional economic, management and technology problems, strengthen international cooperation between researchers and provoke academic and business discussions in the field of sustainable development. Representatives from other countries are welcome to participate. The work in the conference will be organized in opening plenary session, parallel sessions, and concluding plenary session. **Considering the pandemic situation** one session in the conference will be held and streamed completely online, providing an opportunity for participation and easy access from anywhere. After the “online participation” is marked in the registration form, you will be provided with login details to a web conference system, through which you will be able to give presentation and participate in the conference. Same fee applies as for physical participation.

Competition for the best three articles will be held, the top three will be published in ISI/WoS journals free of charge.

Vadyba/Journal of Management 2023 No.2 (39)

Publications of conference proceedings will also be organized. The best articles will be published in scientific Vadyba/Journal of Management (ISSN: 1648-7974, ISSN 2424-399X (online)). Journal is included in the Index Copernicus, CEEOL and EBSCO international databases.

Languages of the conference

All conference material will be reviewed by two reviewers before the conference. Conference language is English.

Sessions:

1. Smart and green management aspects - digital logistics, green and blue project development, digital marketing solutions.
2. Innovation in economy – climate neutral, circular, blue, and digital economy.
3. Today's and future of tourism - Smart city and smart tourism tendencies.
