JORDAN, May 2022
academic year 2022-2023
AMMAN, PSUT, HASHEMITE OF JORDAN

The Lecture Hall of the Princess Sumaya University of Technology

During the International Week organised by PSUT, we had the opportunity to get students, engaged in cross-cultural learning, establish professional connections, and enhance the educational collaboration. Building stronger Erasmus+ ties with PSUT is essential. Through the International collaboration we had the opportunity to establish new academic partnerships with the participants. Also, it was an excellent meeting for sharing expertise and best practices. Finally, we explored opportunities for future collaborations, and joint publications with the participating colleagues. We also discussed all options for students' mobilities.

UniWA, Athens, July 2022

Left: The rector of Princess Sumaya University Prof. Mashoor Al-Refai, with The Dean of the School of administrative, economics and social sciences Prof. A. Spyridakos, Assoc. Prof. Aris Papagrigroriou and Prof. Panos Yannakopoulos. Right: Participating in the graduation ceremony of the ICE Department students'.
