<b>- Aims and activities of the organisation</b>		
<p>Toraighyrov University was established in May of 1996 on the basis of the Industrial Institute established in 1960 based on the Resolution of the Council of USSR Ministers of September 20, 1960. It is one of the largest universities in Kazakhstan. The University is an educational, scientific and cultural centre recognized at the regional and national levels.</p> <p>Toraighyrov University is an undisputed leader among educational institutions of the Pavlodar region not only because of the number of students, but also for the quality of educational services. The University trains specialists in different areas; it has 86 Bachelor's degree programs, 75 Master's degree programs, and 17 PhD programs. The courses are taught in the state, English and Russian languages. The scientific and research work of the University is carried out at 41 departments and 13 research centres, Yertis Scientific and Technological Park, Regional Centre for Innovations and Technology Transfer, and Student Research Centre.</p> <p>Toraighyrov University achieved international recognition in the process of integration into the world educational space; it is a full member of the European educational process. PSU was awarded the European Quality prize at the Oxford Summit of Leaders in the Field of Business, Science and Arts.</p> <p>According to the annual general ranking, Toraighyrov University is among top five best multidisciplinary universities of Kazakhstan.</p> <p>Toraighyrov University is a member of the Bologna Charter of Classical Universities of the World, a member of the International Association for the Exchange of Student Internships IAESTE, Siberian Open University Association, Association of Universities of Kazakhstan and Shanghai Cooperation Organization.</p> <p>The main areas of the research work carried out at Toraighyrov University are energy and energy-saving technologies, construction, mechanical engineering, pedagogy and psychology, environmental monitoring, environmental protection, rational use of natural resources, the economic problems of the region, sociolinguistic and linguo-culturological studies of the problems of higher education and specialists training.</p>
